

My Yarn Stash

A product brief for affiliates: what the app does, who it is for, and how it makes money.

What it is

My Yarn Stash is a mobile-first companion for knitters, crocheters and fibre artists who want to actually use the yarn they own instead of forgetting what is in their stash. Vision-AI reads the label off a single photo, the app remembers the brand, colorway, weight and yardage, and matches the right pattern from your collection back to your stash. Built native for iOS (Android in pipeline), no login wall, no tracker.

Who it is for

Knitters, crocheters and fibre artists from beginners with a single shelf to power users with a couple of hundred labels. The audience skews European, primarily DE/AT/CH, with growing reach in Nordic markets. Creators who sit well: process-knitters, dye-show-and-tells, stash-tour reels, finished-project carousels, granny-square content.

Key features

- **Label scanner:** vision-AI extracts brand, colorway, weight category, fibre content and yardage from a single label photo. Works on most major mill brands.
- **Stash organisation:** filter by brand, weight, fibre, color, project-status, craft type. Plus tags and notes.
- **Ravelry pattern matcher:** select yarn from your stash, the app proposes Ravelry patterns whose yardage and weight fit. Craft-aware (knit vs crochet).
- **Project tracker with built-in timer:** pause and resume a project, the timer keeps running across app sessions, with HH:MM:SS readout, craft-aware labels (rounds vs rows, knit vs crochet).
- **Shopping:** ~12'000 yarn products from Knit Picks, Minerva, idee. Creativmarkt and Wolle Rödel linked in-app via Awin. Every yarn page has a "Buy" deeplink that tracks back to the install.
- **Privacy:** no third-party trackers, no analytics SDKs, vision-AI runs through a Klar-controlled pipeline.

Business model

Two parallel revenue streams.

Stream 1 - Premium subscription

- Price: **4.99 EUR / month**, no annual discount yet, no free trial (live-trial-on-paywall).
- Free tier is generous: unlimited stash entries, 1 group up to 5 members, manual logging, browse public projects.
- Premium unlocks: vision-AI label scanning at scale, larger groups (up to 30), unlimited groups, advanced filters.

Stream 2 - Awin shop commissions

- App embeds Awin-tracked deeplinks (publisher ID 2797044) to yarn-shop checkouts. Each completed purchase earns Klar a percentage commission from the shop (typical 5-10 percent on basket).
- For affiliate-attributed installs, the Affiliate receives a share of those Awin commissions for the attribution window. This is meaningful because knitters re-purchase yarn regularly, often monthly.

Affiliate compensation

- **50 percent of Premium subscription revenue** for **24 months** starting from the user's first paid month.
- **Share of Awin shop commissions** on app-driven purchases by the affiliate-attributed user, for the same 24-month window. Exact percentage in the onboarding.
- **30-day refund holdback** before payout.
- **50 EUR / USD minimum payout**, monthly, via Wise, PayPal or SEPA.

Why this works as an affiliate pitch

The crafting audience converts on tools that solve a real friction: lost yardage, lost colorways, lost project momentum. The shopping stream means even a Premium-skeptical audience contributes revenue whenever they buy yarn through the app. Combined commission per attributed user typically beats subscription-only programmes in the same audience.
