

Trubel

for creators who plan birthdays, bachelorettes and friend-group events

"Drop a QR, all photos collect themselves. Earn from birthday recaps."

You replied, thank you. This playbook is everything you need to decide whether this is a fit for you, and if so, how to get to real conversions with minimum friction.

1. App in 60 seconds + business model

Trubel is an iOS + Android app for photo albums with QR-code magic. You host a hangout (birthday, bachelorette, housewarming, flatshare party), generate a QR card, every guest scans + takes photos normally with their phone camera. After the event the app scans your guests' camera roll automatically within the correct time window (optional GPS radius) and collects every photo into one album. App Store live since May 2026 (Apple-approved after 2 reject rounds).

Why this works

"Send me your pics" in the group chat dies after 4 days. Trubel collects automatically what is already on the phones.

Free vs Premium

- Free: 3 active albums, 20 photos per album, 4 members per album.
- Premium (~5 EUR/month or ~30 EUR/year): unlimited albums, unlimited photos, unlimited members, public World-Map pin.
- Standalone: 4K album download as 1.99 USD one-time consumable (no sub needed).
- Free Lifetime Premium for onboarded affiliates (no posting obligation).

2. Audience fit (does your audience match?)

Works well for

- Birthday-recap creators (Gen-Z, TikTok 10k-500k).
- Bachelorette planners (IG 20k-200k).
- College + dorm lifestyle accounts.
- Flatshare content (EU, DACH especially).
- Festival + travel groups (seasonal but very high reach).
- Camera-roll-aesthetic TikTokers (broad reach, medium conversion).

Works poorly for

- Solo travel vloggers (no event-group pain).
- Corporate event organisers (Trubel is consumer/Gen-Z first).
- Pure aesthetic accounts without a community angle.

3. Reel hooks that work

Faceless content (no face on camera)

- "Stop posting 'send me your pics' in the group chat" - 15s voiceover over B-roll of 5 birthday parties, smash-cut to QR-card reveal, album with 200 photos.
- Screen-recording only "How I'll plan my next bday" - 30s app screen only, create album, QR-card design, share sheet, photo-collection animation.
- Time-lapse "Empty album to 247 photos" - 10s speed-up of album page as photos come in.
- Compilation "5 apps that save your birthday planning" - carousel, Trubel on slide 1 or 3 (not 5, otherwise skipped).
- Before/After split-screen - left: group-chat chaos with 47 "send me ur pics" notifications, right: Trubel album with 247 photos.

UGC / your voice (face on camera)

- POV format "POV: your friend made an album for our hangout" - 20s selfie mode, scan QR at party, cut to finished album.
- Birthday-recap vlog with album reveal - 60s mix of your vlog + Trubel reveal.
- "Day in my life as a hostess" format - Trubel as a 5-second beat in your normal vlog routine.
- Selfie tutorial "How I plan a bachelorette" - 90s, Trubel is step 3 "the photo problem solved".
- IG Story series, 5 slides: "best decision for my bday" / QR-card demo / album reveal / link sticker.

4. Story + carousel ideas

Story ideas

- Education story: QR-card screenshot + sticker "this is how we collect ALL the pics" + link sticker.
- Social proof: post-party group photo, caption "everyone's photos are already in the album".
- Direct ask: selfie mode, "use my link, get 1 month Premium free" - link sticker.

Carousel ideas (IG)

- "5 apps that save your birthday planning" (Trubel on slide 1 or 3, no hard sell).
- "Here's how I plan a bachelorette" (step-by-step screenshots, slide 6 = affiliate link).
- "Best Gen-Z apps you don't know yet" (Trubel + 3 others, neutral voice).

5. Posting cadence + best times

Bachelorette + birthday audience: highest engagement Thu-Sun evenings (planning weekend events).

Festival audience: spike from April through September. Camera-roll aesthetic: any time but trending sounds matter. Frequency: 2-3 reels per month is enough at micro/mid tier, 1 high-quality reel per month at macro tier. Stories with link sticker convert 30-40% of total - keep them up around weekends.

6. Conversion math (why this pays)

Micro creator (15k followers, 1 TikTok reel): 8,000 views x 1.5% CTR = 120 clicks, 35% install = 42 installs, 8% Premium = 3-4 subs, 12 months x 5 EUR x 50% = ~90-120 EUR per reel. Mid-tier (100k, 1 reel): 60,000 views x 1.5% CTR = 900 clicks, 30% install = 270 installs, 8% conv = 22 subs, 14 months x 5 EUR x 50% = ~770 EUR per reel (24-month cap ~1,300 EUR). Macro birthday-recap creator (300k): 180,000 views x 1% CTR = 1,800 clicks, 25% install = 450 installs, 8% conv = 36 subs, ~1,260 EUR per reel (cap ~2,160 EUR). Plus 4K-album consumable purchases on top (high conversion at emotional peaks like weddings + festivals).

7. Tracking model (how it is counted)

- Your link `trubel.space/i/[yourhandle]` works on any platform (IG bio, TikTok bio, story sticker, caption).
- Android: Google Play install-referrer API passes your handle natively. Deterministic.
- iOS warm (app previously installed): Universal Link opens app directly with handle.
- iOS cold (~99% of influencer traffic): signed-token clipboard deferred-deeplink, live-verified via Wavelength. No Branch.io, no vendor lock-in.
- RevenueCat webhook fires on Premium purchase, matches user to your referral, credits 50% for 24 months.
- 4K-album consumable purchases are tracked separately, same 50% share.

11. FAQ

What if I want Free Lifetime Premium but do not want to post?

Fine. We send Premium anyway. Posting is voluntary, your link stays ready whenever you decide to use it.

Can I use the link in multiple posts?

Yes, any number of times. It is your link for 24 months per conversion.

What if I stop posting after 6 months?

Subs that came in during your active time are still paid out until each user's 24-month mark.

Can I negotiate a flat fee on top?

Yes. Mid-tier creators 100-500 USD per sponsored post. Macros 500-2,000 USD. Book the intro call to discuss.

What happens if Premium pricing changes?

You continue to earn 50% on the then-current price. If we move from 5 EUR to 7 EUR, you get 3.50 EUR per sub-month.

Disclosure duty?
