

My Yarn Stash

for knitting and crochet creators

"Photo of the yarn label in, app extracts everything, matches with Ravelry patterns from your stash. Earn from what you already share."

You replied, thank you. This playbook is everything you need to decide whether this is a fit for you, and if so, how to get to real conversions with minimum friction.

Contents: 1. App in 60 seconds · 2. Audience fit · 3. Reel hooks · 4. Stories + carousels · 5. Posting cadence · 6. Conversion math · 7. Tracking model · 8. Onboarding · 9. Dashboard · 10. Brand assets · 11. FAQ · 12. Next steps

1. App in 60 seconds + business model

My Yarn Stash is an iOS + Android app for hobby knitters and crocheters. Photograph the yarn label, AI extracts material, yardage, needle recommendation, manufacturer and colour. The app then matches Ravelry patterns you can actually knit with YOUR stash. Plus: project tracking, FO logbook (finished objects), pattern-match history, and group sharing for knit circles. App Store live since May 2026 (Apple-approved).

Why this works

Ravelry's mobile app is dead (the 2020+ redesign disaster), 10M+ users without a native solution. We fill the gap with better UX and AI auto-fill.

Free vs Premium

- Free: 30 yarn items in the stash, 1 group with 5 members, manual entry + photo scan, pattern-match search.
- Premium (4.99 USD/month or 29.99 USD/year): unlimited stash, unlimited groups / members, AI pattern-match recommendations, advanced project tracking.
- Dual affiliate rail: 50% Premium sub share + Awin shop commission share on in-app yarn purchases (Knit Picks, Minerva, more shops in Q3 2026).
- Free Lifetime Premium for onboarded affiliates (no posting obligation).

2. Audience fit (does your audience match?)

Works well for

- Pattern designers (IG, 50k-700k, very high - real tool need).
- KnittingTok creators (TikTok, 50k-500k).
- CrochetTok creators (TikTok, 100k-1M).
- Indie yarn dyers (IG, 20k-200k, co-promo path).
- Yarn-shop owners (IG, 10k-50k, medium - commercial bias).
- EU knit-DE #strickenmachtlücklich (IG, 5k-30k, loyal smaller market).

Works poorly for

- Generic craft accounts without yarn-specific focus.
- Sewing / quilting creators (different niche, low cross-over).
- Macro Ravelry-rooted accounts loyal to Ravelry brand (resistance to alternatives).

3. Reel hooks that work

Faceless content (yarn + UI as hero)

- Screen recording "I scanned my entire stash" - 45s, time-lapse scan of 100 labels, app auto-fills, cut to pattern-match list "23 patterns I can knit RIGHT NOW".
- Aesthetic stash tour (hands only) - 30s, pull 5 beautiful skeins, scan each, ASMR knitting-needle sound, "the app I wish existed in 2020".
- Comparison "Ravelry app vs My Yarn Stash" - 60s side-by-side screen recording.
- Label magic-reveal - 15s top-down shot, camera over label, cut to app screen with auto-fill, "yeah it does ALL that from one photo".
- WIP-Wednesday compilation - 5-7 WIPs (hands / yarn shots), app logo on slide 1, lo-fi knitting sound.

UGC / your voice (knitter trust)

- Selfie stash tour with reveal - 90s, you in knitting room with stash visible, "184 skeins, no clue what I can knit, watch this", cut to pattern-match.
- "Meet my stash through the app" - 60s, voiceover with origin stories of 3-5 skeins, app scans while you talk.
- FO reveal with yarn origin - 30s, "made from 4 skeins I scanned 6 months ago", cut to app project view.
- Pattern-designer cross-promo - "Here's how I match my patterns to your stash", demo your patterns in Discover tab.
- Indie yarn-dyer co-promo - shared reel/carousel, both parties post, both have affiliate links.

4. Story + carousel ideas

Story ideas

- Education story: label scan demo + sticker "this is how I track my stash now" + link sticker.
- Social proof: "23 patterns I can knit from my stash tonight" screenshot + link.
- Direct ask: selfie story, "1 month Premium with my link" + link sticker.

Carousel ideas (IG)

- "5 knitting apps you actually need" (My Yarn Stash on slide 1, no hard sell).
- "How I scan a 200-skein stash in 10 minutes" (process carousel, slide 7 = affiliate link).
- "Stash blindness solved" (problem-to-solution carousel).

5. Posting cadence + best times

Knitting audience: highest engagement Sun + Mon evenings ("plan-my-knit-week" mood) and Wed evenings (WIP-Wednesday). 1-2 reels per week works at micro / mid tier. Pattern-designer posts perform any day. Always pair a reel with a story + link sticker that runs 24 hours.

6. Conversion math (why this pays)

Micro pattern designer (15k IG, 1 reel): 8,000 views x 2% CTR = 160 clicks, 35% install = 56 installs, 8% Premium = 4-5 subs, 14 months x 4.99 USD x 50% = ~140-180 USD sub-rail per reel, PLUS Awin tail (typical knitter re-buys every 3-6 weeks) = +50-200 USD shop commission over 12 months. Mid-tier KnittingTok (100k, 1 stash tour): 80,000 views x 1.5% CTR = 1,200 clicks, 30% install = 360 installs, 6% Premium = 22 subs, ~770 USD sub-rail (cap ~1,300 USD) + 200-800 USD Awin tail. Pattern-designer macro (250k, 1 pattern launch): reach 120,000, 8% Premium conv = 43 subs, ~1,500 USD sub-rail (cap ~2,580 USD) + 500-2,000 USD Awin tail. Conservative combined estimate: 200-3,000 USD per clip depending on reach.

7. Tracking model (how it is counted)

- Two rails. Primary: [getklar.org/i/yarnstash/\[yourhandle\]](https://getklar.org/i/yarnstash/[yourhandle]) - sub rail, 50% rev-share on Premium for 24 months.
- Shop rail (Awin): when your referred user buys yarn in-app via Knit Picks / Minerva, Awin tracks the conversion, commission flows into your Awin account.
- Android (sub rail): install referrer passes handle natively, deterministic.
- iOS warm: Universal Link with handle.
- iOS cold (~99% of creator traffic): signed-token clipboard deferred-deeplink, live-verified via Wavelength.
- Power: both rails are independent and add up.

8. Onboarding (5 minutes)

- Click the personal link from Mail 2 (valid 7 days).
- Choose pay method, activate Free Lifetime Premium.
- Separate step: connect your Awin account (free, publisher 2797044 if you want to attach to our Klar ID).
- Dashboard at getklar.org/dashboard via magic link - shows both rails separately.

9. Dashboard (what you see)

- Sub rail: clicks per day / week / month, installs split, active Premium subs.
- Awin rail: in-app yarn purchases tracked by your handle, commission share visible.
- Claimable + paid + carry-over + next payout date + refund pipeline (sub rail).
- Awin payout pipeline runs on Awin's own monthly schedule.

10. Brand assets (download)

Logo, app screenshots, stash-tour B-roll, pattern-match UI snippets and ready-made captions: getklar.org/i/yarnstash/brand-assets (link goes live with your onboarding mail).

11. FAQ

How do the two rails work in practice?

Sub rail: 50% of every Premium sub coming through your link, for 24 months. Shop rail: Awin commission on every yarn purchase your referred user makes in-app (Knit Picks + Minerva initially, more shops in Q3 2026).

Do I need an Awin account?

Yes, for the shop rail. We help with setup in the onboarding call. Awin account is free.

Pattern-designer bonus - can I feature my patterns in the app?

Yes. You give us your pattern list (Ravelry link), we add it to the Discover tab. Both sides win: your patterns reach the stash audience, you earn extra.

Disclosure duty?

Yes. Rev-share + shop affiliate = paid recommendation. #ad / #sponsored / IG "Paid Partnership". FTC + EU + UWG.

What if Premium pricing changes?

You continue to earn 50% on the then-current price.

Can I get a flat fee on top?

Yes. Mid-tier creators 100-500 USD per post, macros 500-2,000 USD. Discuss in the intro call.

12. Next steps

- Questions? Reply directly to Mail 2.
- Want to start? Click the onboarding link from Mail 2, invest 5 minutes, you are live.
- 15-minute intro call? Book a slot via <https://cal.getklar.org/alain/affiliate-intro> (Cal.com). We walk through tracking / payout / content ideas if you want to clarify before onboarding.
