On Wavelength

On Wavelength: Affiliate Playbook

You replied, thank you. Here is everything you need to decide whether this is a fit for you, and if so, how to get to real conversions with minimum friction.

Cover

On Wavelength Affiliate Playbook for Creators As of May 2026

Subtitle: "Plan smarter, together. Earn from what you share anyway."

1. What Wavelength does (60 seconds)

Wavelength is an iOS+Android calendar with a feature that doesn't exist cleanly anywhere else: **heatmap voting for group dates**. Everyone in the circle taps their available times, the app automatically computes the best shared slot. No "when works for you" ping-pong in the group chat.

Two use cases that pull in practice:

Use case A: friend circles, flatshares, families. Brunch, game night, trip planning. Instead of 47 WhatsApp messages: one link, everyone votes, time is set.

Use case B: amateur sport teams. Coach plans trainings + matches + lineups for 8 sports (soccer/volleyball/basketball/handball/hockey/badminton/tennis/running). Live attendance, stats, drill library. **This is the sticky use case**, because 1 coach brings 8-16 users.

[SCREENSHOT SLOT: heatmap voting hero shot + coach dashboard]

2. Audience fit (does your audience match?)

Works well for:

- Amateur sport coaches (all 8 sports above, plus run clubs)
- Productivity/calendar creators with a real group-coordination problem
- Flatshare/roommate lifestyle (#flatshare, #roommates)
- Friend-group travel planners (#grouptrip, #squadtravel)

Works poorly for:

- Solo productivity (Notion templates etc.) because Wavelength is a group tool
- US high-school football (TeamSnap dominates)
- Pro sport coaches (they have enterprise tools)

Conversion reality: coaches convert above average (estimated 3-5% reel-views to install) because they have a concrete pain problem every day. The productivity audience converts weaker (~0.5-1%), but reach is higher.

3. Reel hooks that work (examples)

Sport coach reels

1. **"Stop wasting your warmup yelling 'who's not here'"** Show how live attendance works in the lineup screen (3 players tap-tap-tap), "saved me 5 minutes every session."
2. **"How I plan a full season in 20 minutes"** Screen recording: enter matches, duplicate trainings, import player list. Voiceover of your own routine.
3. **"The drill library that saved my Tuesday trainings"** You flip through the app drill library, combine 3 drills into a session, "here's tonight's plan, took me 4 minutes."
4. **"POV: you're the coach with the group chat from hell"** Comedic take: 50 notifications, nobody knows who can do Thursday. Smash cut to Wavelength heatmap, one shared slot.
5. **"This replaced my whiteboard"** Before: whiteboard with player magnets. After: Wavelength lineup editor. "Same thing, but I can do it from the bus."

Productivity / flatshare reels

6. **"The one app my flat actually uses"** You show your flat's week plan, each roommate has a colour, shared dates (cooking, cleaning) as a heatmap vote.
7. **"How to never have the 'when works' conversation again"** 30-second reel, one person typing into 3 chats "when can you", cut to Wavelength: "one link, everyone votes, done."

General patterns that pull

- **Specific number in title** (5 minutes, 20 minutes, 4 minutes)
 - **Before/after cut** (whiteboard -> app, group-chat chaos -> heatmap)
 - **POV format** (sport-coach-specific, high save rate)
 - **Personal voiceover** (no TTS, no stock-music only)
-

4. Story templates (3 of them)

Story 1 (education): screenshot of the heatmap + sticker "THE feature I need most" + swipe-up to your link.

Story 2 (social proof): photo of you + team after training, caption "we plan all our sessions here", mention @onwavelength + link sticker.

Story 3 (direct ask): you in selfie mode, "use code [YOURHANDLE] for 1 month free Pro" (Premium trial detailed in Mail 2).

5. Carousel ideas (IG)

- **"5 apps that saved my coaching season"** (Wavelength on slide 1, no hard sell)
 - **"How we finally find dates as a flatshare"** (step-by-step with screenshots, slide 6 = affiliate link in caption)
 - **"Tools every amateur coach needs"** (Wavelength + 4 generic tools, you as the trusted voice)
-

6. Posting cadence + best times

Sport-coach audience: highest engagement Tue+Thu 7-9pm CET (post-training, pre-bed scroll). Sat morning for match-day content.

Productivity audience: Mon+Wed 8-10am CET (morning-routine scrolling) or Sun evening 6-8pm ("plan-the-week" mood).

Frequency: 1 reel per week is enough for affiliate conversion. More is better for you, but we don't expect you to spam. 1 story on top with link sticker brings 30-50% of the conversions empirically, because it's the "warm" touchpoint.

7. Conversion math (why this pays)

The model: 50% revenue share on every Premium subscription that comes through your link, **24 months from that user's first sub.**

Premium pricing On Wavelength: ~5 EUR/month or ~40 EUR/year (as of May 2026, ASC current).

Example 1 (micro coach, 15k followers, 1 reel):

- Reel views: 8,000 (typical for a 15k account in this niche)
- Click-through on link in bio: 2% = 160 clicks
- Install rate: 40% = 64 installs
- Conversion to Premium (coaches are very conversion-prone): 15% = 10 subs
- If all 10 stay for 12 months: $10 \times 12 \times 5 \text{ EUR} \times 0.5 = \mathbf{300 \text{ EUR}}$
- Plus: ~30% take annual = $3 \text{ subs} \times 40 \text{ EUR} \times 0.5 = 60 \text{ EUR}$

- Realistic first reel: **300-400 EUR over 12-24 months**

Example 2 (productivity, 100k followers, 1 reel):

- Reel views: 60,000
- CTR: 1.5% = 900 clicks
- Install: 35% = 315 installs
- Conversion to Premium: 4% = 12 subs
- Mix annual/monthly: ~12 subs over 12 months = **360-450 EUR**

Example 3 (sport-drill TikTok, 250k):

- Views: 180,000
- CTR: 0.8% = 1,440 clicks
- Install: 30% = 432 installs
- Conversion: 6% = 26 subs
- 12-month rev-share: **~1,500 EUR from ONE reel**

Important: these numbers are expected values from market benchmarks + our internal coach conversion rate (measured). Your concrete mix depends on audience engagement + content fit. We share your dashboard after going live; you see clicks/installs/subs in real time.

8. Tracking model (how it's counted)

1. You share your link `onwavelength.space/i/[yourhandle]`. Works on any platform (IG bio, TikTok bio, story sticker, description).

2. Person taps the link. We log the click + the source.

3. Person installs the app.

- Android: Google's install-referrer API passes your handle natively (deterministic, no trick).
- iOS warm (app was installed before): Universal Link, also deterministic.
- iOS cold (~99% of influencer traffic, fresh install): we use a DIY clipboard deferred deeplink. The landing page writes a signed token to the clipboard, the app reads it on first start. **Proven functional, live verified**, no Branch.io needed. No code, no email, no vendor lock-in.

4. Person buys Premium. RevenueCat (our payment backend) fires a webhook event with the user ID. We match the user ID to your referral, credit you the 50%.

5. Payout: 30-day refund holdback (against chargebacks). After that, your share lands in the next monthly batch. Minimum payout 50 EUR (otherwise carry-over into the following month). You receive via Wise, PayPal or SEPA. You choose the pay method during onboarding.

Self-referral is blocked. If you register yourself, it doesn't count. Everything else counts, including family/friends who come through your link — that is fine.

24-month cap: you earn on each user for at most 24 months from their first sub. After that, the person drops out of your bucket. 24 months is the industry-standard maximum, beyond that it

becomes unprofitable for us.

9. Onboarding (5 minutes)

The Mail 2 you just read contains a **personal onboarding link**. It is valid for 7 days, then expires for security reasons (no token leak).

Step by step:

1. Click the link from Mail 2. 2. You land on `onwavelength.space/affiliate/[your-token]`. 3. You fill in:

- Display name + handle (your @ from IG/TikTok)
- Pay method: Wise / PayPal / SEPA + corresponding payment details
- Country (for tax docs)
- Billing address (for Wise/SEPA) or PayPal mail

4. We generate your **personal link** and mail it to you + unlock your dashboard. 5. **Free Lifetime Premium** in the app: you receive an activation code by mail to enable Premium on your account. No posting obligation, no expiry.

The complete onboarding pipeline is live + automated.

10. Dashboard (what you see)

In `getklar.org/admin/affiliate/[yourhandle]` (login via magic link to your onboarding mail) you see in real time:

- Clicks per day/week/month
 - Installs (Android/iOS-warm/iOS-cold separated)
 - Active Premium subs from your bucket
 - Payable amount + carry-over
 - Next payout date
 - Refund holdback pipeline
-

11. Brand assets (download)

Logo, app screenshots, B-roll footage, colour palette, ready-made caption snippets:

`getklar.org/i/wavelength/brand-assets`

(Link goes live with your onboarding mail.)

12. FAQ

"What if I want Free Lifetime Pro but don't want to post?" Fine. We send Pro anyway. We don't market in your name. Whenever you decide to post, your link is ready.

"Can I use the link in multiple posts?" Yes. It is YOUR link, for 24 months per conversion. More posts = more conversions = more payout. No volume cap.

"What if I lose interest after 6 months?" We let it rest. Subs that came in during those 6 months continue to be paid out until each user's 24-month mark.

"Do I need an agency / can I route PR bookings through this?" No / yes. You can negotiate a flat fee for sponsored posts on top (e.g. 200-600 EUR for a TikTok), the rev-share stays on top. We can discuss in a call.

"What happens if Premium pricing changes?" You continue to earn 50% on the then-current price. If we raise Premium from 5 EUR to 7 EUR, you get 50% of 7 EUR.

"Disclosure duty?" Yes, rev-share counts as a paid recommendation. Please use #ad / #sponsored / IG "Paid Partnership". Otherwise there is a warning-letter risk for you and us (FTC/EU law).

13. Next steps

If you have questions: reply directly to Mail 2.

If you want to start: click the onboarding link from Mail 2, invest 5 minutes, you are live.

If you want a 15-minute intro call: book a slot via `{{CAL_LINK}}` (Cal.com). We walk through tracking/payout/content ideas if you want to clarify before onboarding.

On Wavelength is operated by Alain Kessler (CH, sole proprietorship). The affiliate program is a direct agreement between you and me, no platform/intermediary. Contract document follows with onboarding. Questions any time to alainkessler04@gmail.com.
