My Yarn Stash

My Yarn Stash: Affiliate Playbook

As of May 2026 — for Knitting/Crochet creators

Subtitle: "Photo of the yarn label in, app extracts everything, matches with Ravelry patterns from your stash. Earn from what you already share."

1. App in 60 seconds + business model

My Yarn Stash is an iOS+Android app for hobby knitters and crocheters. Photograph the yarn label, AI extracts material, yardage, needle recommendation, manufacturer and colour. The app then matches Ravelry patterns you can actually knit with YOUR stash. Plus: project tracking, FO logbook (finished objects), pattern-match history, and group sharing for knit circles.

Why this works: Ravelry's mobile app is dead (the 2020+ redesign disaster), 10M+ users without a native solution. We fill the gap with better UX and AI auto-fill.

Free vs Premium:

- **Free:** 30 yarn items in the stash, 1 group with 5 members, manual entry + photo scan, pattern-match search
- **Premium (4.99 USD/month or 29.99 USD/year):** unlimited stash, unlimited groups/members, AI pattern-match recommendations, advanced project tracking
- **Dual affiliate rail (Awin on top):** in-app buy-links to Knit Picks and Minerva via Awin (Publisher 2797044, 12,470 deep-links). When your referred user buys yarn through the app, you also earn the Awin shop commission.

Market: hobby knitters and crocheters worldwide (90%+ female, high purchasing power, EU + US + UK + AU). Fiber-arts market is 5B+ USD.

Live status: App-Store-LIVE since May 2026 (Apple-approved). Premium subs are running, Awin shop-rail postback is in end-to-end verification.

2. Tracking + attribution architecture

Your link (two rails):

1. **Primary:** [getklar.org/i/yarnstash/\[yourhandle\]](https://getklar.org/i/yarnstash/[yourhandle]) (sub rail, 50% rev-share on every Premium sub for 24 months)
2. **Shop rail (Awin):** when your referred user buys yarn in-app via Knit Picks / Minerva, it runs through Awin postback into your Awin account. Commission rate varies per shop and product type (table in the affiliate setup).

3 tracking paths for the sub rail:

1. **Android install referrer:** your handle is passed natively, deterministic 2. **iOS warm Universal Link:** app already installed -> direct open with handle 3. **iOS cold:** the landing writes a signed token to the clipboard, the app reads it on first start. Live-verified through Wavelength.

Sub conversion: click -> landing -> install -> first-open with handle -> Premium purchase via RevenueCat -> 50% rev-share for 24 months to you.

Shop conversion (Awin): click in-app on "buy this yarn" -> Awin tracks -> conversion at Knit Picks/Minerva -> commission flows straight into your Awin account (no Klar detour).

Payout:

- Sub rail: 30-day refund holdback + monthly batch via Wise/PayPal/SEPA, minimum 50 EUR
- Shop rail (Awin): Awin's own payout pipeline (typically monthly after order validation)

Power: both rails are independent and add up.

3. Marketing strategy A: faceless content

When you want to show your knitting setup but not your face. Yarn content is visually perfect without face — the labels, the stash, the FOs are the stars.

Hook 1: screen recording "I scanned my entire stash"

- 45s, app screen only
- Time-lapse: scan 100 yarn labels, app auto-fills each item
- Voiceover (TTS or your own voice) about how it works
- Cut to pattern-match list "and here are 23 patterns I can knit RIGHT NOW"

Hook 2: aesthetic stash tour (no face)

- 30s, hands-only with yarn
- You pull 5 beautiful skeins from the stash, scan each
- App UI as overlay, ASMR knitting-needle sound
- Caption: "the app I wish existed in 2020"

Hook 3: compare "Ravelry app vs My Yarn Stash"

- 60s, side-by-side screen recording
- Left: Ravelry's broken mobile interface
- Right: My Yarn Stash label scan
- Voiceover or TTS

Hook 4: label magic-reveal

- 15s, top-down shot of your hand with yarn
- Camera over the label, cut to app screen with auto-fill

- "yeah it does ALL that from one photo"

Hook 5: WIP-Wednesday compilation

- IG reel or TikTok, 5-7 of your WIPs (hands/yarn shots, no face)
- App logo on slide 1 + caption "this is how I track them"
- Trending sound (e.g. lo-fi knitting playlist)

Faceless advantage: yarn aesthetic content performs extremely well on TikTok without face. You can do volume + the algorithm loves sensory content.

4. Marketing strategy B: UGC / your voice

When you have trust as a knitter or pattern designer. Your voice and your style carry it.

Hook 1: selfie stash tour with reveal

- 90s, selfie mode, you in your knitting room with stash visible
- "These are 184 skeins. I have no clue what I can knit with them. Watch this."
- Cut to app scan + pattern-match result
- "Now I have 23 patterns I can start tonight."

Hook 2: "meet my stash through the app" format

- 60s, voiceover of your own story
- You tell the origin story of 3-5 skeins ("This one's from Edinburgh Yarn Fest 2022...")
- App scans them while you talk, writes them to inventory
- Beautiful narrative + useful CTA

Hook 3: FO reveal with yarn origin

- 30s, FO reveal (your newest finished knit)
- "made from 4 skeins I scanned in My Yarn Stash 6 months ago — the app tracked the whole project"
- Cut to app project view

Hook 4: pattern-designer cross-promo

- If you design patterns yourself: "Here's how I match my patterns to your stash"
- Demo how your own patterns are listed in the app's Discover tab
- Strong network move, builds trust + conversion at the same time

Hook 5: indie yarn-dyer co-promo

- If you know or are an indie dyer: shared reel/carousel
- "Here's where I bought this yarn (Hedgehog Fibres) + here's the app where I track it"
- Both parties post, both have affiliate links

UGC advantage: pattern-designer authority + knit-community loyalty pay off. 1 honest reel often = 3+ subs from an engaged audience.

5. Creator pool in your niche

Top-fit subniches:

Niche	Platform	Size	Conversion
Pattern designers	IG	50k-700k	very high (real tool need)
KnittingTok creators	TikTok	50k-500k	high
CrochetTok creators	TikTok	100k-1M	high
Indie yarn dyers	IG	20k-200k	very high (co-promo path)
Yarn-shop owners	IG	10k-50k	medium (commercial bias)
EU knit-DE (#strickenmachtlücklich)	IG	5k-30k	high (loyal, smaller market)

Anchor creators:

- **Stephen West** @westknits (NL ~500k, modern knit)
- **PetiteKnit** @petiteknit (~700k+, minimalist sweaters)
- **Andrea Mowry** @dreareneeknits (US ~250k)
- **Bella Coco** @bellacococrochet (UK ~500k+)
- **Toni Lipsey** @tlycyarncrafts (~1M+ TikTok)
- **Hedgehog Fibres** @hedgehogfibres (~200k, indie dyer)

Hashtags: TikTok: #knittingtok #crochettok #yarntok #wipwednesday #fojourney #grannysquares #amigurumi

IG: #knittersofinstagram #knitspiration #ravelry #yarnaddict #stashbusting #crochet #amigurumi #indiedyer #handdyedyarn

Power move 1: stash-tour videos are already an established TikTok format. You only integrate the app + label scan into your existing style.

Power move 2: indie-dyer co-promo. Your shop listing in the app + the influencer's audience cross over = double win.

6. Conversion math (example calculations)

Micro pattern designer (15k IG, 1 reel):

- Views: 8,000
- CTR: 2% = 160 clicks
- Install: 35% = 56 installs

- Premium conv: 8% = 4-5 subs
- 14 months × 4.99 USD × 50% = **~140-180 USD from sub rail**
- Plus: typical knitter buys yarn every 3-6 weeks -> Awin tail over 12 months + **50-200 USD shop commissions on top**

Mid-tier KnittingTok (100k, 1 stash tour):

- Views: 80,000
- CTR: 1.5% = 1,200 clicks
- Install: 30% = 360 installs
- Premium conv: 6% = 22 subs
- 14 months × 4.99 × 50% = **~770 USD from sub rail** (cap ~1,300 USD)
- Plus Awin tail: + **200-800 USD shop commissions** over 12 months

Pattern-designer macro (250k, 1 pattern launch with app integration):

- Reach: 120,000
- CTR: 1.5% = 1,800 clicks
- Install: 30% = 540 installs
- Premium conv: 8% = 43 subs
- 14 months × 4.99 × 50% = **~1,500 USD from sub rail** (cap ~2,580 USD)
- Plus Awin tail: + **500-2,000 USD shop commissions**

Conservative combined estimate: 200-3,000 USD per clip depending on reach.

7. Onboarding + payout (5 minutes)

Mail 2 contains your **personal onboarding link** (valid 7 days). Click -> choose pay method -> activate Free Lifetime Premium. Plus a separate step: connect your Awin account (if you want shop-rail commissions).

Dashboard: [getklar.org/admin/affiliate/yarnstash/\[handle\]](https://getklar.org/admin/affiliate/yarnstash/[handle]) via magic link. Shows both rails separately — sub conversions + Awin conversions in real time.

8. FAQ + compliance

"How do the two rails work in practice?" Sub rail: 50% of every Premium sub coming through your link, for 24 months. Shop rail: Awin commission on every yarn purchase your referred user makes in-app (Knit Picks + Minerva initially, more shops in Q3 2026).

"Do I need an Awin account?" Yes, for the shop rail. We help with setup in the onboarding call. Awin account is free (publisher 2797044 if you want to attach to our Klar ID).

"Pattern-designer bonus: can I feature my patterns in the app?" Yes. You give us your pattern list (Ravelry link), we add it to the Discover tab. Both sides win: your patterns reach the stash audience, you earn extra.

"Disclosure duty?" Yes. Rev-share + shop affiliate = paid recommendation. #ad / #sponsored / IG "Paid Partnership". FTC/EU/UWG.

"What if the Premium price changes?" You continue to earn 50% on the then-current price.

My Yarn Stash is operated by Alain Kessler (CH, sole proprietorship). The affiliate program is a direct agreement between you and me. Awin is an independent affiliate network, separate account required. Questions to alainkessler04@gmail.com.
